

Ms. Michalak,

I would like to submit the following testimony concerning SB 288. Thank you.

Tracy Lynn

I submit this on behalf of myself and my many friends, family, and acquaintances in Kalamazoo and Battle Creek who are strongly opposed to Senate Bill 288 to voice our opposition. We are not a special interest group, but a diverse group of people ranging from hardcore outdoor enthusiasts to casual tourists, hunters, fishermen, animal lovers, environmentalists, or just citizens who care about Michigan. But what we all have in common is that we greatly care about our wildlife and do not want our right to have a say in what happens to Michigan's wildlife taken away. To turn over Michigan's wildlife decisions to a decidedly special interest, unelected commission is unconstitutional as well as potentially capricious. Do not take away Michigan's voters' rights to have a voice in wildlife protection. Please listen to the Michigan citizens and do not let SB 288 go any further.
